

This listing of claims will replace all prior versions and listings of claims in the present application.

Listing of Claims

1. (Previously presented) An anhydrous chemical composition for application to the skin comprising a mixture of at least 50% by weight of total composition of the processed Dead Sea mineral particles in a continuous all-natural carrier medium being an oil wherein said Dead Sea mineral particles do not rapidly settle out of said carrier medium.
2. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 16 wherein said continuous all-natural carrier medium comprises palm oil.
3. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 2 wherein said continuous all-natural carrier medium comprises soybean oil.
4. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 3 wherein said continuous all-natural carrier medium comprises olive oil.
5. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 4 wherein said continuous all-natural carrier medium comprises jojoba oil.
6. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 5 wherein said continuous all-natural carrier medium comprises beeswax.

7. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 6 wherein said continuous all-natural carrier medium comprises jojoba wax.
8. (Currently amended) ~~anhydrous~~ The anhydrous chemical composition for application to the skin of Claim 7 wherein said continuous all-natural carrier medium comprises cashew husk oil ethoxylate.
9. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 8 wherein said continuous all-natural carrier medium comprises coconut oil.
10. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 9 further comprising Vitamin E oil.
11. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 16 further comprising an essential oil blend.
12. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 11 wherein said essential oil blend comprises lavender.
13. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 12 wherein said essential oil blend comprises rosewood.
14. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 13 wherein said essential oil blend comprises chamomile.
15. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 14 wherein said essential oil blend comprises calendula.
16. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 1 wherein said processed Dead Sea particles are less than about 10

mesh and less than about 1.0 mm size granularity.

17. (Previously presented) The anhydrous chemical composition for application to the skin of Claim 11 wherein said essential oil blend comprises lavender, rosewood, chamomile, and calendula.
18. (Previously presented) Processed Dead Sea minerals, 100% of said processed Dead Sea minerals comprising granularity of less than about 10 mesh and less than about 1.0 mm size granularity.
